

*Taking responsibility for the Environment benefits the
Economy**

Environmental Management - Galilee Institute, Israel

28th October – 15th November, 2010

As a member of the OECD, Israel's industry is highly committed to environmental protection and is becoming one of the world leaders in its Environmental approach and technology. Industrialists now recognise*, that taking care of environmental issues, whether using water more efficiently or reducing waste, is also good for production.

In our upcoming Environmental Management Programme to be held at Galilee International Management Institute between 28th October and 15th November, 2010, we encourage you to learn, at first hand Israeli Environmental technologies. Through professional lectures, study tours and interactive sessions participants will get the opportunity to absorb Israeli knowledge and experience mainly **in water and waste management and in alternative energy production.**

Tuition scholarships for qualified candidates are currently available. The tuition scholarship is given, tentative to approval by the Admissions Committee and does not include the living expense fee (16,000 Israeli Shekels) or airfare.

EARLY BIRD POLICY: We are delighted to offer a special discount to any applicant, who completes the registration process, admitted and submits the local expense by 28th August, 2010.

Please note: your organisation may also benefit from the GIMI scholarship policy in the following fields:

Public Administration and Civil Service Management (January 2011)

Human Resources Management (July and December 2010)

Project Management (December 2010)

For information about all of our programmes, curriculum, Holy Land excursions, lecturers' background, scholarships and fees, please do not hesitate to contact the Programme Director, Ms. Nirit Yardeni-Drori at nyardeni-drori@galilcol.ac.il

With kind regards,
Dr. Ofer Dressler
Academic Director

***Mr. Rob Visser, Deputy Director of the Environment Directorate of OECD (Organization for Economic Co-Operation and Development)**
